POLICIES & PROCEDURES

This document contains the general policies and procedures adopted by Peerless Securities Limited in line with SEBI directives as per Circular No. MIRSD/SE/Cir-19/2009 dated 3rd December, 2009, which will have a bearing on the client's dealings with Peerless Securities Limited (PSL) and vice versa. Client is requested to take note of the following policies and procedures before placing orders for security trading:

a) Refusal of Orders for penny stocks:

Penny stocks are illiquid stocks generally of small companies and such stocks are traded infrequently and generate very low volume. Details of illiquid stocks are circulated by the Stock Exchanges every month in their websites. Clients may note that Peerless Securities Limited will not encourage trade in penny stocks and as such order received from client for buy of such stocks or intraday trading will be referred by the concerned Branch to the Head Office of PSL and approval of allowing such trade or otherwise will be conveyed to the Branch after the matter is examined at the appropriate level. The decision will essentially rest on the financial position, back ground, trading history of the client and the stock. Client as a matter of right cannot expect trading rights in penny stocks/illiquid stock and if allowed there should be 100% margin available in client's account. The list of selective style of securities will be displayed in PSL's website from time to time.

b) Setting up client's exposure limit:

It is the policy of PSL to set down rules and modalities for setting up exposure limits for its clients. Exposure limits are set taking into consideration the market volatility, risk perception about the trading client, and availability of shares in client margin account. The exposure limit is set as an integer of the clear balance available for the client, viz. balance in the trading account and value of shares held in Margin/Hold-on accounts after appropriate hair-cuts and such limits may vary from client to client depending on the risk perception and value of clients. Depending on the market dynamism exposure limit may undergo change even during a day.

c) Applicable Brokerage Rate:

The brokerage rates are fixed at the time of opening of trading account and the rates at which brokerage is to be charged are mentioned in the account opening form. Same brokerage rate may not be applicable for all clients as the rates have a relevance on the risk perception about the client and the volume of trade. It may, however, be noted if for any reason brokerage rate is revised upward, this will be done with prior intimation to the client and the rates would be maintained within the permissible ceiling rates prescribed by the Stock Exchanges.

d) Imposition of penalty/delayed payment charges:

It may be noted that PSL has the right to charge penalty/delayed payment charge in the event of client's failure to make payment against purchase of shares within the stipulated period i.e. T+2 day and for any outstanding debit balance in his trading account. The discretion to levy such charge in the trading account, at a rate not exceeding 2% per month, will solely rest with PS without any reference to the client.

e) The right to sell clients' securities or close client's positions without giving notice to the client on account of non-payment of client's dues:

Payment for purchase of security has to be made by the client through account payee cheque only from the declared bank a/c of the client favoring Peerless Securities Ltd. by T+1st day but not later than the due date for paying of funds to the concerned exchange. No third party cheque is acceptable. Client should arrange for deposit of such cheque well in advance as the date on which clear fund available in the bank account of PSL that would be treated as the date of having received the payment although a receipt may be issued at an early date for the cheque given by the client. PSL would present the cheques in clearing and would not be responsible for any delay due to clearing in the banking system.

The client should note that in the event of his failure to make payment price of securities purchased through PSL and the relative brokerage/Security Transaction Tax and other charges before the pay-in-date notified by the exchange from time to time, PSL can sell the securities at any time on the Exchange without giving any prior intimation, either verbal or in writing, to the client. Client is expected to honour all his obligations promptly to avoid such situations.

Further, if payment / securities towards the Margin or shortfall in Margin is not received instantaneously to enable restoration of sufficient Margin in the Client's account, all or some of the positions of the Client as well as the Securities of the Client in the possession or control of PSL may be liquidated by PSL at its sole discretion, without any reference or prior notice to the Client.

The resultant or associated losses that may occur due to such squaring off or sale of such securities shall be borne by the Client, PSL will remain fully indemnified and held harmless by the Client in this behalf. Such liquidation or close out of positions shall apply to any segment in which the client will do business with PSL.

f) Shortages in obligations arising out of internal netting of trades

In case, in any settlement, where both the purchase and sale position for any scrip are limited between two or more clients of PSL only, and the net position to the concerned Exchange in that settlement and for that scrip is "NIL"; in such a situation, if there is any short delivery, the resultant auction position will be inter client for both legs i.e., the party delivering short and the corresponding purchaser. In such circumstances the position of both the clients would be squared off by taking Purchase Price/ Selling Price/ Weighted Average Price/ Exchange Auction Price, whichever is higher for that particular share, for that particular settlement to protect the buyer's interest.

g) Conditions under which a client may not be allowed to take further position or the broker may close the existing position of a client

A client is not allowed to take further position or the existing position of a client can be closed on the following conditions :

- 1) If the ledger of a client shows continuous debit balances.
- 2) If there is erosion in the available cushion during the day- for example, if there is drop in available margin value by more than 50% the client may be refused to take any further position in cash segment against the same margin and existing positions in F&O segments may be closed out.
- 3) If the margin deposited by the client is insufficient vis-à-vis the exposure assumed by the client.
- 4) If the dues are not settled by the client.
- 5) If the exchange is not allowing any further position in that scrip.
- 6) If broker's limit of taking exposure in that particular scrip comes to an end
- 7) Any other reasons as considered prudent by PSL. By way of illustration these may be irrational/ illogical behaviour of the client by which the working atmosphere of the branch of PSL may be affected, false and unfounded allegations which have a bearing on PSL's reputation brought by the client etc.

h) Temporarily suspension or closure of client's account at the client's request:

The account of the client shall be suspended/closed on receipt of written request from the client, provided there are no dues from the client. For accounts suspended on the client's request, the same can be reactivated only after receiving a written request for the same from the client.

Policy concerning Inactive Accounts

Definition of Inactive Accounts. An account to be inactive in the following event :

When a trading account shows no transactions i.e. buying and / or selling of securities by the concerned client for a period of consecutive 6 months, the said account will be deemed to be a Dormant account and if remain without any transactions for another 6 months, the said account will be deemed to be an Inactive Account. The exercise of finding out Inactive accounts will be done every 6 months in September and March.

Manner of return assets : Once an account is identified as dormant / inactive, Peerless Securities Ltd. consider return of the assets retained by the concerned client.

Reactivation of dormant / inactive accounts :

Inactive : Apart from following the above procedure, the client has to fill in the account opening form once again and submit necessary documents regarding identity / address / financial status etc.

i) Deregistration of a client:

A client shall be deregistered upon fulfillment of the following conditions:

- a) On receipt of the specific request from the client to deregister himself and to close his accounts, provided there are no dues from the client to PSL.
- b) On account of breach of terms and conditions of the agreement by the client.
- c) On account of any action taken by SEBI/Stock Exchange/ any other authority against the client thereby debarring him from accessing the securities market.

ANTI-MONEY LAUNDERING (AML) – COMBATING FINANCING OF TERRORISM (CFT)

WHAT YOU MUST KNOW – FAQs

Help us in preventing money laundering / terrorist financing.....Your assistance really matters us.

Ever wondered why the Broker is asking you certain personal information which has hitherto never been called for? Such information can include documents evidencing source of funds / income tax returns / bank records etc. By providing this information to the Broker, at the time of account opening and subsequently as and when required, you are actually assisting the efforts in prevention of money laundering / terrorist financing. Here are the details, presented in the form of frequently asked questions (FAQs) to let you know how.

What is Money Laundering?

Money Laundering is the process by which criminals attempt to hide and disguise the true origin and ownership of the proceeds of their criminal activities, thereby avoiding prosecution, conviction and confiscation of the criminal funds. The term Money Laundering is also used when the funds are used for terrorist financing, though the origin of the funds may be legitimate.

Money Laundering has acquired a global character that not only threatens security, but also compromises the stability, transparency, and efficiency of financial systems. Money-laundering techniques are becoming more sophisticated and complex with each passing day.

The objective of AML & CFT Program is to prevent financial intermediaries from being used as a tool for the purpose of Money Laundering & terrorist financing and to preserve the integrity of the Financial system.

In response to mounting concern over money laundering, the Financial Action Task Force on money laundering (FATF) was established by the G-7 Summit in Paris in 1989 to develop a co-ordinated international response. One of the first tasks of the FATF was to develop Recommendations, 40 in all, which set out the measures national governments should take to implement effective anti-money laundering programmes.

How much money is laundered per year?

The IMF has stated in 1996 that the aggregate size of money laundering in the world could be somewhere between two and five percent of the world's gross domestic product.

Using 1996 statistics, these percentages would indicate that money laundering ranged between USD 590 billion and USD 1.5 trillion. However it must be said that overall it is absolutely impossible to produce a reliable estimate of the amount of money laundered and therefore the FATF does not publish any figures in this regard.

How is money laundered?

In the initial - or placement - stage of money laundering, the launderer introduces his illegal profits into the financial system. This might be done by breaking up large amounts of cash into less conspicuous smaller sums that are then deposited directly into a bank account, or by purchasing a series of monetary instruments (cheques, money orders, etc.) that are then collected and deposited into accounts at another location.

After the funds have entered the financial system, the second – or layering – stage takes place. In this phase, the launderer engages in a series of conversions or movements of the funds to distance them from their source. The funds might be channelled through the purchase and sales of investment instruments, or the launderer might simply wire the funds through a series of accounts at various banks across the globe. This use of widely scattered accounts for laundering is especially prevalent in those jurisdictions that do not co-operate in anti-money laundering investigations. In some instances, the launderer might disguise the transfers as payments for goods or services, thus giving them a legitimate appearance.

Having successfully processed his criminal profits through the first two phases the launderer then moves them to the third stage – integration – in which the funds re-enter the legitimate economy. The launderer might choose to invest the funds into real estate, luxury assets, or business ventures.

Where does money laundering occur?

Money laundering can occur practically anywhere in the world. Generally, money launderers tend to seek out countries or sectors in which there is a low risk of detection due to weak or ineffective anti-money laundering programmes.

How does money laundering affect business, economic development & society at large?

Money laundering damages the integrity of the financial institution, entire society and undermines democracy and the rule of the law as it rewards corruption and crime.

There is a damping effect on foreign direct investment when a country's commercial and financial sectors are perceived to be subject to the control and influence of organised crime. Fighting money laundering and terrorist financing is therefore a part of creating a business friendly environment which is a precondition for lasting economic development.

The possible social and political costs of money laundering, if left unchecked or dealt with ineffectively, are serious. Organised crime can infiltrate financial institutions, acquire control of large sectors of the economy through investment, or offer bribes to public officials and indeed governments.

The economic and political influence of criminal organisations can weaken the social fabric, collective ethical standards, and ultimately the democratic institutions of society.

How does fighting money laundering help fight crime?

Targeting the money laundering aspect of criminal activity and depriving the criminal of his ill-gotten gains means hitting him where he is vulnerable. Without a usable profit, the criminal activity will not continue.

What should individual governments be doing about it?

A great deal can be done to fight money laundering, and, indeed, many governments have already established comprehensive anti-money laundering regimes. These regimes aim to increase awareness of the phenomenon – both within the government and the private business sector – and then to provide the necessary legal or regulatory tools to the authorities charged with combating the problem.

Some of these tools include making the act of money laundering a crime; giving investigative agencies the authority to trace, seize and ultimately confiscate criminally derived assets; and building the necessary framework for permitting the agencies involved to exchange information among themselves and with counterparts in other countries.

What are Local regulations on AML / CFT?

- a) Prevention of Money Laundering Act, 2002 (PMLA) came in to force with effect from July 01, 2005 read with the prevention of Money Laundering (Amendment) Act, 2009.
- b) SEBI Guidelines on PMLA vide circular issued in January 2006 followed by latest Master circular issued in February 2010.
- c) Exchanges have also issued Guidelines on PMLA to be followed by all registered intermediary.

How is Money Laundering defined under PMLA 2002?

Section 3 of the Prevention of Money Laundering Act (PMLA) 2002 defines the “Offence of Money Laundering” as:

“Whosoever directly or indirectly attempts to indulge or knowingly assists or knowingly is party or is actually involved in any process or activity connected with the **proceeds of crime** and projecting it as untainted property shall be guilty of the offence of money laundering.”

“**Proceeds of crime**” has been defined in Section 2 of the PMLA as the property derived or obtained directly or indirectly by any person, as a result of criminal activity relating to a scheduled offence or the value of such property.

“**Scheduled Offences**”, as per section 2 of PMLA, are specified in two parts of the schedule to PMLA. The value involved in offences specified in Part B should be Rs.30 lakhs or more.

SEBI has instructed all Market Intermediary to adopt a KYC / AML Policy

- d) To comply with applicable laws and regulatory guidelines.
- e) To take necessary steps to ensure that the concerned staff is adequately trained in KYC / AML procedures.

- a) Maintaining a record of prescribed transactions.
- b) Furnishing information of prescribed transactions to the specified authority (Financial Intelligence Unit-India (FIU-IND)).
- c) Verifying and maintaining records of the identity of its clients.
- d) Preserving records in respect of a,b,c above, for a period of 10 years from the date of cessation of transactions with the clients.

What is Financial Intelligence Unit-India (FIU-IND)?

FIU-IND is a central, national agency, set up by Government of India on 18th November, 2004, responsible for receiving (and as permitted, requesting), analyzing and disseminating to the competent authorities, disclosures of financial information (i) Concerning suspected proceeds of crime and potential financing of terrorism, or (ii) Required by national legislation or regulation, in order to combat money laundering and terrorist financing.

- c) Counterfeit currency transactions.
